Overview

The goal of this questionnaire is to facilitate the expression of your interests. This will help you initiate your collaboration with practitioners you have identified and/or help the networks of L4C identify an in-world practitioner to explore possible collaboration.

Please use this form to frankly describe the *domain* of your interest as well as the reasons you are committed to it—your *concerns*—that is, *why* you are personally drawn to this domain. If your answers indicate you are looking for collaborators, your submission will be shared with potential collaborators to find common interests, toward the goal of engaging in conversation and so that you may further your research and understanding of your domain as well as your potential contribution to it.
